PERFORMANCE GASKETS & FASTENERS

ALUMINUM EXHAUST & COLLECTOR GASKETS

- Made from "Dead Soft" aluminum
- Conforms easily to surface irregularities and creates a tight leak proof seal
- Will not shrink, deteriorate, blow-out or burn-out
- Ideal for race, street, tow vehicles and motor homes

PART NO.	DESCRIPTION
7401G	Aluminum Exhaust Gskt, SBC Square Port
7402G	Aluminum Exhaust Gskt, SBC Round Port
7407G	Aluminum Exhaust Gskt, BBC Round Port
7410G	Aluminum Exhaust Gskt, SBF Rect Port
7411G	Aluminum Exhaust Gskt, SBF Oval Port
7420G	Aluminum Collector Gskt, 2.50" Dia.
7421G	Aluminum Collector Gskt, 3.00" Dia.
7422G	Aluminum Collector Gskt, 3.50" Dia.

Note: Collector gaskets include mounting bolts.

ULTRA-SEAL EXHAUST GASKETS

- Made from expanded metal core with high-temperature graphite faced exhaust material
- Expanded metal core provides stability and excellent torque retention to eliminate gasket failure
- Conforms easily to surface irregularities and creates a tight leak proof seal
- Can be trimmed if necessary for custom port applications

PART NO.	DESCRIPTION
7558	Ford 4.6L DOHC 2005-Up
7559	Ford 4.6L SOHC 2005-Up

SUPER TIMING COVER GASKET SETS

- Made from MRG 4200 high-density material that provides excellent sealing properties (oil and fuels), along with high crush resistance for continuous use to 350F, with intermittent exposure to 650F
- Seals using low flange pressure (clamp force)
- Requires no gasket sealer for installation
- Releases easily (no scraping required) will not stick to mating surfaces

PART NO.	DESCRIPTION
4793G	Chevrolet V8 262-400 (55-91)
4794G	Chevrolet V8 396-454 (65-90)

SUPER DIFFERENTIAL REAR END GASKETS

- Made from MRG 4200 high-density material that provides excellent sealing properties (gear lube), along with high crush resistance for continuous use to 350F, with intermittent exposure to 650F
- Seals using low flange pressure (clamp force)
- Requires no gasket sealer for installation
- Releases easily (no scrapping required) will not stick to mating surfaces

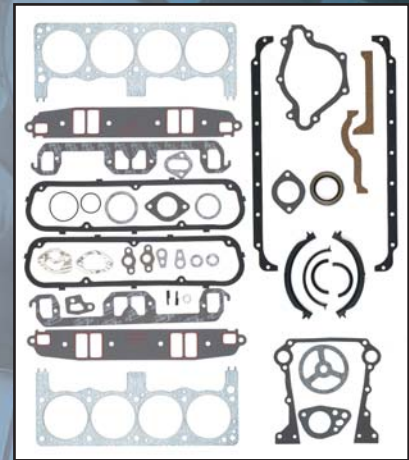

PART NO.	DESCRIPTION
4602G	Chevrolet/GM 12 Bolt 8.875" Ring Gear 65-72 (Passenger Car)
4603G	Ford 10 Bolt 9" Ring Gear 57-81

ULTRA-SEAL ENGINE OVERHAUL GASKET KIT

Contains ultra-seal performance gaskets

- Cylinder head
- Intake
- Exhaust
- Valve cover
- Oil pan

PART NO.	DESCRIPTION
5981	Oldsmobile V8 400, 425, 455 1968-76
5994	Chrysler V8 383-440 (except 426 hemi) 1959-78

CARBURETOR BASE GASKET

- Made from premium 1/16" gasket material
- Incorporates perforated center for easy modification
- Fits 4-hole intake manifold, can be modified easily by removing center to fit open center intake manifolds
- Conforms easily to surface irregularities and creates a tight leak proof seal

PART NO.	DESCRIPTION
48C	Holley & Demon Square Flange 4-BBL, Fits 4-Hole And Open Center Applications

FLYWHEEL BOLTS

- Engineered and manufactured for reliability
- Heat treated to Grade 8 specification for strength and durability
- Black oxide finish resists rust and corrosion

PART NO.	DESCRIPTION
913	Chrysler 426 Hemi 1964-71
