

2007 NEW PRODUCTS

#21720

Designed specifically for the Hemi-Truck and Rumble Bee Truck, Lakewood Industries offers a new set of Truck Traction Bars that also fit Most Dodge trucks with leaf springs! They are Engineered to prevent wheel-hop and help keep the tires planted firmly to the ground, while clearing the rear Disc-Brake Calipers on these trucks. This upgrade is a must for anyone wanting to put power to the pavement!

#18005

Specifically designed to fit the New Ford 05/06 Mustangs. Easy Bolt-on installation without modifications. Both NHRA and IHRA legal. Made from 1/4" thick zinc-plated steel. Complete with mounting hardware and instructions.

#15035

This Truck Bellhousing was created in response to customer requests, featuring a larger center bore (5.125) to accommodate truck transmissions. We would normally take a regular car Bellhousing out of stock and do the machine work to open up the centerbore for a truck transmission. Now this Truck Bellhousing will be a regular Lakewood item, kept in stock and available at all times to help our truck customers quickly, and at no extra charge!

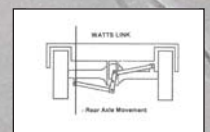

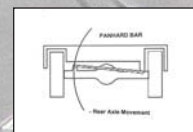

#20105

MUSTANG 05/06 REAR LOWER ADJUSTABLE CONTROL ARMS
Designed specifically for the 05 Mustang, Lakewood Industries offers a New set of Adjustable Lower Control Arms. Engineered to prevent wheel-hop and help keep the tires planted firmly to the ground, while being fully adjustable "on-the-car". These Control Arms replace the stock factory control arms, that you can twist by hand. This upgrade is a must for anyone wanting to put the power to the pavement!

#20505

2007 MUSTANG ADJUSTABLE WATTS LINK KIT
The Watts Link kit is the ultimate upgrade for 2005 Mustang owners who want razor sharp handling and improved lap times. This watts link kit bolts in place of the factory panhard bar and brace making installation quick, simple and 100% bolt in. It has been engineered to keep the rear-end perfectly centered and aligned under cornering, acceleration and braking. The adjustable design of this unit allows you to change the roll center of the rear end resulting in better traction.

2007 NEW PRODUCTS

#20705

This Heavy-Duty Lakewood upper control arm adjusts easily for quick and simple pinion angle adjustments to set up your suspension. It also features a nice black powder coated finish, for rust and corrosion resistance. The grease fitting is easy to reach to keep your control arm lubricated and working smoothly. Its built with High-Strength tool steel to Handle all the HorsePower and Torque you can put out! You will also have a little less road noise and vibration because of the polyurethane bushings that absorb shock yet remain stiff enough for racing!

#20405

MUSTANG 05/06 ADJUSTABLE PANHARD ROD

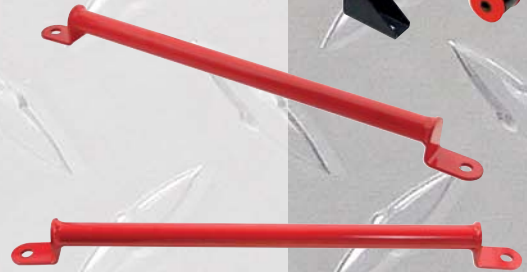

Designed specifically for the 05 Mustang, Lakewood Industries offers a New Panhard Rod. Engineered to keep rear-end centered and aligned under severe cornering conditions. Manufactured from high strength steel tubing to prevent flex and bending.

#20205

2005 & 2006 MUSTANG Lower K-Member Support Brace

Designed specifically for the 05/06 Mustang, Lakewood Industries offers this New Lower K-Member Support Brace. Its Engineered to prevent the Lower Control Arms from Spreading and Flexing. Keeping Front Suspension planted firmly to the ground. This upgrade is a must for anyone already using a Upper Strut Tower Brace!

#20305

This Driveshaft is CNC made from 3-1/2" Dia. Aluminum for light weight and extra strength. It also features the large Heavy Duty 1350 U-joints that just will not break apart ! This also comes complete with a DANA Slip-Yoke attached for the TKO trans as well as a CNC Machined adapter That allows you to bolt directly into the 05/06 Ford Mustang Differential Bowl Bracket. Easy Installation!

#15255

This Lakewood TKO Bellhousing is specifically made for the 05/06 Mustangs. This Bellhousing lets you drop in and bolt up the Bad-Boy of all Racing | transmissions. It is sfi certified and comes complete with Safety Block-Plate and all mounting hardware needed to install.
