

SUPER ULTRA-SEAL III PERFORMANCE GASKETS

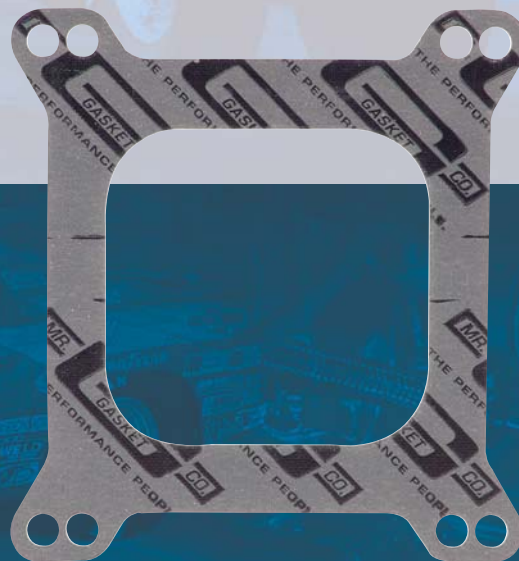

Mr. Gasket Super Ultra-Seal III Performance Gaskets are made from a high-density material that combines a custom-engineered copolymer binder system which holds fibers and fillers together, reinforced with 100% synthetic fiber and high-temperature fillers, to produce a uniform, high-strength composite sealing material. This material delivers excellent sealing properties for oil, fuels and coolant at low flange pressure (clamp force), along with high crush resistance for continuous use to 350°F and intermittent exposure to 650°F.

FEATURES & BENEFITS

- Made from high-density, high-tensile strength and high-temperature gasket material
- Delivers excellent sealing properties for oil, fuel and coolant
- Seals using low flange pressure (clamp force)
- Can be modified (trimmed) easily to fit custom applications
- Requires no gasket sealer for installation
- Releases easily (no scrapping required) will not stick to mating surfaces when disassembling engine

CARBURETOR BASE GASKET

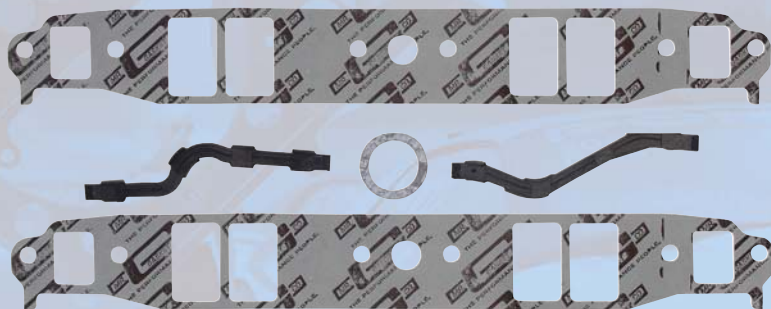

DESCRIPTION	PART NO.
Holley 2 Bbl 350/500-Open Center	4249G
Holley/Demon 4 Bbl. Square Flange-Open Center	4254G
Holley/Demon 4 Bbl. Square Flange-4 Hole	4255G
Holley Dominator/King Demon 4 Bbl.-Open Center	4257G
Holley Dominator/King Demon 4 Bbl.-4 Hole	4258G
Holley Split Dominator 2 Bbl.-Top (Shear Plate)	4260G
Holley Split Dominator 2 Bbl.-Bottom (Shear Plate)	4261G
Rochester Quadrajets - 4 Hole	4256G
