

# 2010 CAMARO

### ACCEL Silver Tip Spark Plugs

- Silver plugs for LS based engines are a “Shorty” configuration to help prevent burning plug wires when used with headers.
- Silver Plugs offered in a colder heat range that allows the use of nitrous, superchargers, turbochargers, or high compression.
- Silver is the best electrical conductor which allows for a wider heat range and is extremely resistant to fouling.
- Silver center electrode - Low Ignition voltage requirements allows easier starting.

1 Step Colder in Heat Range

### Mr. Gasket Ultra-Seal Exhaust Gaskets

- Manufactured from high-temperature graphite facing /steel core exhaust material
- Expanded steel core provides stability and maximum torque retention
- Graphite facing provides excellent heat resistance and thermal conductivity to transfer heat away from cylinder head
- Conforms to and seals minor surface irregularities

Chevrolet LS2 6.0L, LS3/L99 6.2L, 2005-10 . . . . .#5966

### Exhaust Manifold Bolts – Metric

- Designed for quick, easy, installation and removal
- Compact socket head design is ideal for use where space is minimal
- Socket head bolt 8mm-1.25 x 39 mm L (16 pcs)
