

PROMASTER Series

In today's economy, we at Mallory understand that maximizing your performance dollars is one of your top priorities. That's why we have introduced a new line of economically priced street/strip distributors - the PROMASTER Series. We took the most popular application, loaded the distributors with features and benefits that everyone could appreciate and priced them where anyone could afford them;

- CNC machined billet 6061-T6 aluminum housing
- Machined for O-rings – O-rings included
- Centerless ground shaft, welded pins, plated assembly with nylon rub pads
- Steel distributor gear compatible with flat tappet or hydraulic roller camshaft
- Easy to adjust vacuum advance (if equipped) – lock out included
- Easy to adjustable top mount mechanical advance - recurve kit included
- Cap, rotor and wire retainer included

Mallory PROMASTER Distributors
